Multi Screen Appliances

MS600Ns/MS1600Ns/MS2800Ns

BASIC OPERATION GUIDE

ENGLISH

Introduction

Thank you for acquiring the DT Research Multi Screen Appliance. The Multi Screen Appliance facilitates the creation of a unique and powerful communications medium that offers unparalleled opportunities to capture an audience's attention at key decision-making locations. The DT Research Multi Screen Appliance enables efficient deployments for digital signage, with reliable hardware features and innovative server-based software. The Microsoft® Windows®-based Appliances offers remote management of the devices and the displayed content with the WebDT Content Manager. The DT Research Multi Screen Appliance together with the WebDT software suite offers an effective solution for delivering and managing messages that target audiences in the right place, at the right time.

Package Contents

1. One DT Research Multi Screen Appliance
2. One power cord
3. Mini DP to DP/HDMI/DVI adapters
4. Documentation

NOTE: The actual package contents may vary depending on the configuration acquired.

BOG033023 MS ENG

Connecting Peripherals

Make sure your monitors are connected the Multi Screen Appliance with suitable cables. After the peripherals are connected, plug the power cord into the Appliance and insert the other end into a power outlet.

NOTE: DO NOT connect the power cord before connecting all cables to the MS Appliance.

NOTE: Make sure the power supply switch is on before you power on the system.

Using Cable Extenders

To be compatible with the Multi Screen Appliance, the extenders should be with EDID management
function. Once you make sure the display issues are due to the video cable extenders, please contact your local reseller or system integrator to recommend verified extenders to you.

Powering ON and OFF

The Power Button is located on the front of the Multi Screen Appliance.
To turn the Multi Screen Appliance on, push and release the Power Button on the front bezel. The power LED will be lit (blue), and the corresponding interface will be shown on the display monitors.
To turn off the device, use the software shutdown interface provided.
If your MS player hangs up, please restart it from WCM or RDP rather than pressing the power button to restart, otherwise the OS may become corrupted.

Connect Player and Register to WCM Server

When you power on your Multi Screen Appliance, the registration dialog will be launched automatically. You can also launch it from **Start | All Programs | DT Research | WebDT Signage Player | Register Player Again**.
NOTE: If your signage player is located in a LAN with a WCM server, the player will automatically register to the server in the same LAN.

Registration Information:

**Player name:** Leave default name or give a new name
Group name: If you did not create a group in WCM server yet, leave it blank now
Organization name: my site (default)
Access Password: 123456 (default)
Publish Server URL:
http://(server IP address): (port number)/publish
or, http://localhost: (Port number)/publish

- To exit the full screen introduction, press "Ctrl+Shift+Space" to exit the WebDT Signage Player.
- To re-launch the WebDT Signage Player, navigate to Start | All Programs | DT Research | WebDT Signage Player | Start player.
- To register this signage appliance to another WebDT Content Manager Server, navigate to Start | All Programs | DT Research | WebDT Signage Player | Register Player Again, and then the Player Registration dialog will be launched. Fill in all fields to register. Click OK to register and connect to the preferred WebDT Content Manager Publish Server.
- Please refer to documentation included in the DVD of your package to start managing your content, playlists and schedules via WebDT Content Manager.

Multiple Screen Layout Designer/MS Quick Start Guide

DT Research provides this tool to help you adjust the screen layout. Multiple Screen Layout Designer can be installed on a PC or laptop to manage the screen layouts of the Multi Screen Appliances in the same LAN.
